Jump™ Upgrade Kits

Sound Technology. Exceptional Performance.

Jumpstart earnings again. Upgrade your Rowe CD wall and floor jukeboxes and NSM wall boxes with the Jump™ Upgrade Kit that allows full digital Internet access to thousands of songs on the AMI music network. The Jump digital upgrade kit is built by Rowe International, the world's leading manufacturer of CD and Digital jukeboxes. Jump is the only authorized kit to update Rowe CD jukeboxes and it connects to AMI Entertainment, the only digital network that offers Operators a choice of broadband or dial-up connectivity.

For more information, please visit [www.RoweInternational.com](http://www.RoweInternational.com) to find your nearest Rowe distributor or call 1-800-393-0201.

## What it means to be Powered by AMI

- Broadband or dial-up – True “Down-loader” and dial-up with Music on Demand feature in one package, no additional hardware needed
- Lifetime warranty on hard drives
- You own your router; AMI does not require your location information
- First 30 days – no album charges
- Up to 300 album additions per year at no charge
- Rock Around the Clock 24/7 Tech Support at 877-ROC-N-ROL
- One number to dial for hardware or software issues
- Merit link for enhanced jukebox revenue
- Best music filters – no one can match our scheduled music filters
- Kwik Pick feature – fastest selection method, without excessive song repetition
- New enhanced music search menus
- New music – many albums added to AMI in the last 30 days
- Hot music – most popular songs on the AMI network
- Experienced and accessible inside sales team available from 8 am – 7 pm EST at 800-393-0201
